

Harness the Power of Sun
Go Solar - The Future of Energy

**Custom Solar Solutions,
Engineered for Excellence,
Full Service & Installation.**

Who We Are?

Jhansi Engineering (Pvt) Ltd. is a One Window Solution Provider in Energy, Industrial Solutions and Infrastructure Development. The Group excels in diversified business activities, ranging from Engineering, Procurement & Construction, Electro-Mechanical Contracting, Civil & Infrastructure Development, Operations & Maintenance, Turnarounds, Upgradation & Rehabilitation Services.

Jhansi is a pioneer in the Solar Industry, offering diverse turnkey Renewable Energy Solutions, Jhansi is not just any other EPC firm. At Jhansi EPC stands for Ease, Price, and Commitment. We execute with ease at the most comfortable price and deliver a commitment durable for a lifetime. Jhansi has always been in the front to pass on the price dips to all our clients on a real time basis.

OUR SOLUTIONS ARE
GREEN, CLEAN, AND SMART

Jhansi & Sustainability

Fostering a Love of Clean Energy!

JHANSI is dedicated to playing its part in climate change - and making provision of healthy environment a reality by delivering Green & Clean Energy. The company currently extends its renewable energy expertise in the Solar, Wind, and Hydro sectors.

Our Energy Portfolio

Decades of Experience Across Energy Value Chain

The company is a humble contributor in supporting its OEM & Construction Partners and EPC Companies in building over 1,000 MW Renewable Projects across India and in the Region. Jhansi has managed O&M of over 300 MW Power Projects on a long-term basis, covering both Fossil and Renewable Technologies.

Our Solutions

Offering Exceptional Solar Solutions for Every Need

Our marketing, sales, engineering, construction, and customer service teams strive to provide the best solutions to our customers in line with their needs. We cover Residential, Commercial, Industrial and SME requirements.

INDUSTRIAL

We provide highly efficient mass Solar Systems that sync with your existing power generation system that can power your industries all year long.

COMMERCIAL

We offer the best available technologies to create cost-effective Renewable Energy for your commercial space.

RESIDENTIAL

We follow a customized approach to offer residential Solar Solutions of different capacities as per your unique needs.

SMEs

Do you own a small- or medium-sized business and are unsure of what Solar Solution to get? We can tailor-make a Solar System to cater to your needs.

Our Services

We Are the Best in Business! Making a Sustainable Difference!

Whatever your unique solar energy needs, JHANSI Engineering has a solution. Our robust portfolio provides an impressive array of powerful, clean solutions. Every service is designed - for maximum savings, optimal performance, long-term reliability, and sustainability. We strive to build a sustainable future and pave the way for growth, demonstrating unmatched excellence, integrity, and constant development.

Engineering, Procurement & Construction (EPC)

Jhansi provides customized turnkey Solar Solutions. Our experts undertake detailed feasibility analysis to design robust, optimized, and complete Engineering, Procurement, and Construction (EPC) Solutions.

Operations and Maintenance (O&M)

Keeping your Solar Panels at peak efficiency ensures maximum return on investment. Solar Panels that are properly maintained can last for many years. Jhansi also provides operations and maintenance and Solar asset management and monitoring services.

(I&C) Services

Jhansi offering various I&C related services separately since they have huge expertise in on site – off site installation expertise in solar and wind farm installations.

1. Civil pile marking with DGPS and concreting as per custom requirements
2. MMS installations along with module mounting.
3. Construction of Main control room (MCR) along with plant internal roads.
4. Construction of civil foundation equipment like ICR, Transformer and other electrical equipment foundations.
5. Construction of Peripheral boundary wall. Fencing, streetlights installations.
6. Construction of foundations for all switchyard related works.

Our Experienced Management Team

Chinna Venkat Reddy
Managing Director

A Mechanical Engineer with Master's degree in CAD/CAM from JNTU Hyderabad, holding over 13 years of experience in renewable energy and expertise in product design and development for single and dual axis tracking systems. Additionally, he has extensive project management experience in solar power plant construction, with a focus on pre-engineering building design and construction, resulting in up to 1GWp project management expertise.

T.H Gangi Reddy
Managing Director

An experienced Civil Engineer with a graduate degree from JNTU Anantapur, having over 11 years of experience in the construction with overall experience of 1 GWp of solar power plants, with a deep understanding of various solar power plant configurations, including single and dual axis tracking systems. His expertise also includes the design and construction of civil foundation structures such as piles, ICR structures, MCR structures, and switch yards.

Ready to go Solar?

As a leading supplier of the world's most advanced Solar Solutions, we know reliability when we see it. We partner with top-notch suppliers to customize your solar package according to building materials, local regulations, and sunshine. We are a part of your community and understand the best way to help you achieve your environmental and energy goals.

Civil Construction Services

From Planning to Completion Turning Ideas into Structures

As a leading construction company, Jhansi Civil Works is committed to ensuring our clients receive top-quality service for all their building needs. From design to project management, our team will work with you every step of the way to bring your vision to life. It doesn't matter if you're an architect or homeowner looking to build a new space from scratch, we have the expertise and experience to make it happen. Our passion for construction is what sets us apart, and we're excited to share it with you.

We delivered edifices with soul and style; We construct residential and commercial structures. The projects are executed considering your tastes and preferences. Meticulous planning, trending architectural concepts and quality materials that bear the expert's influence in its details are the ingredients that goes into every project.

Avoid costly rework and stay on schedule with our flexible civil engineering consulting services. Partner with us for innovative solutions, operational efficiency, and project success. At the end of the day, engineering services are really about transparency, collaboration, and relationships. You want a partner you can trust to keep your project on budget and schedule.
